Name of Camp/Jewish Experience

Program Dates/Duration

Anticipated Camp Expense

The Federation income based, or financial needs based, Youth Experiential Scholarship, commonly known as Jewish Y.E.S., was initiated over 40 years ago and was primarily designed to encourage and fund summer camp experiences for our children.

While summer camp was the initial focus of Jewish Y.E.S., funds are available for any organized experience with the primary focus of building Jewish identity, education and values for children entering second grade through high school graduation.

There are some eligibility requirements that allow for funding of a camp experience with regard to Federation Membership and Sunday School Participation. There are also some various funding levels available each year to each child per family and total funds available to the entire family each year. Funds are also subject to a cumulative family benefit over the course of a family's camp eligibility.

Please contact the Federation so we may educate you on the different grants that are available for your children. We hope you will consider this offer for your children this year.
